KEY

FEATURES

"We designed the Lagoon 51 as a perfect synthesis of the modernity of the shapes and the sail plan, with living space on deck and inside that is unequalled on a boat of this size."

VPLP Design

LAGOON 51

KEY FEATURES

APPEALING FLYBRIDGE

The flybridge is optimized to occupy 80% of the roof with 2 large sunpads at the front of the helm station and a huge C shape seating area. The central table can be lowered to create an XL sunbathing area.

The comfortable sofas allow you to welcome your guests to share and enjoy relaxing times, alongside the captain, at the helm of the Lagoon 51. Thanks to its modular seating, you can enjoy navigating the boat alone or with others.

Discover a truly convivial space.

LAGOON 51

KEY FEATURES

APPEALING FLYBRIDGE

Two stairs lead to the fly, one for the helmsman and one for the guests. This double access allows a great fluidity of connection between the living spaces of the boat.

This convivial place is appreciated at anchor but also during navigation. Thanks to full headroom in the flybridge, it can be safely used underway.

Maneuvers are at hand from steering station, while the guests can walkaround without disturbing the helmsman.

The flybridge of the Lagoon 51 is innovative by the modularity of its spaces, its clever ergonomics and the coziness of this great living area.

LAGOON 51

KEY FEATURES

EXTENDED TRANSOMS FOR A BETTER CIRCULATION

Step effortlessly aboard the Lagoon 51 thanks to the large and wide transoms. This feature provides a safe and practical access to the dock side.

In association with the Tenderlift, this represents a super large balcony by the sea. At mooring, this large bathing platform is an invitation to swim and relax with your feet in the water!

For an easy circulation on board, there are only 2 very small steps between the cockpit and the transoms. The level between the two is considerably low, making it the most accomplished solution on the market. Practical and design, it meets a real need.

LAGOON 51

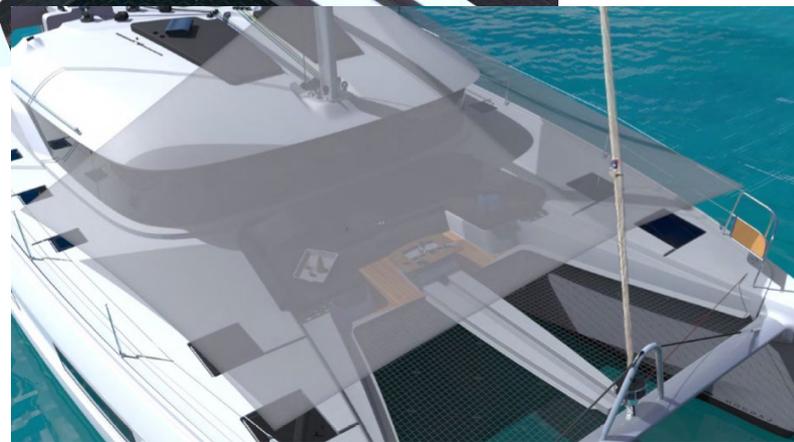

KEY FEATURES

WELCOMING FORWARD COCKPIT

Walk along the side-decks to reach the forward cockpit.

This beautiful space has an unobstructed view over the ocean and is designed to meet your every need : whether sharing sundowners or laying back comfortably in the middle of the day under the shade sail.

Forward cockpit hosts nice amenities like plenty of cupholders, a nice coffee table and a sun protection to enjoy every moment.

*"The stepped up lounge of the saloon
offers the best 360° panoramic view
over the water."*

NAUTA Design

LAGOON 51

KEY FEATURES

NEW GENERATION INTERIOR

Step into a spacious salon

Discover innovative concept of space. Thanks to the mast being stepped on the fore end of the saloon, the view is continuous. The great luminosity, coming from the 360° vertical windows, and the new wood finishes "Alpi sand oak" simply reinforce this feeling of space.

Wherever you are, the volume of this salon is impressive, allowing for an easy circulation. In addition, it offers all the practical solutions you would expect on a Lagoon.

Always more confort for the owners

The owner's cabin benefits as well from this layout optimization and proposes, as standard, a large walk-in dressing.

LAGOON 51

SUSTAINABILITY

XXL Solar panels options

The Lagoon teams have reinvented themselves to meet the demands of the new generation of owners.

Lagoon 51 offers options of XXL solar panels on the roof. This technology provides more than 3.400 watts of power to operate the on-board service. The boat is therefore fully autonomous (except for the air conditioning).

The solar panels fit perfectly into the lines of the catamaran and do not interfere with life on board. The flybridge and the sunpads on the roof are still accessible and usable even with the panels.

LAGOON 51

SUSTAINABILITY

SUSTAINABLE COMMITMENTS

Lagoon is committed to minimizing its impact on the environment. Sustainable solutions and environment care are an important part of the Lagoon strategy. On board this model :

- hemp fiber replaces fiberglass wherever possible, together with partially biosourced resin
- upholstery in recycled fabric is proposed
- 100% ecological and biodegradable cleaning products will be delivered with the boat
- The proposed Alpi wood is FSC (Forest Stewardship Council)

and many more innovations are in progress.

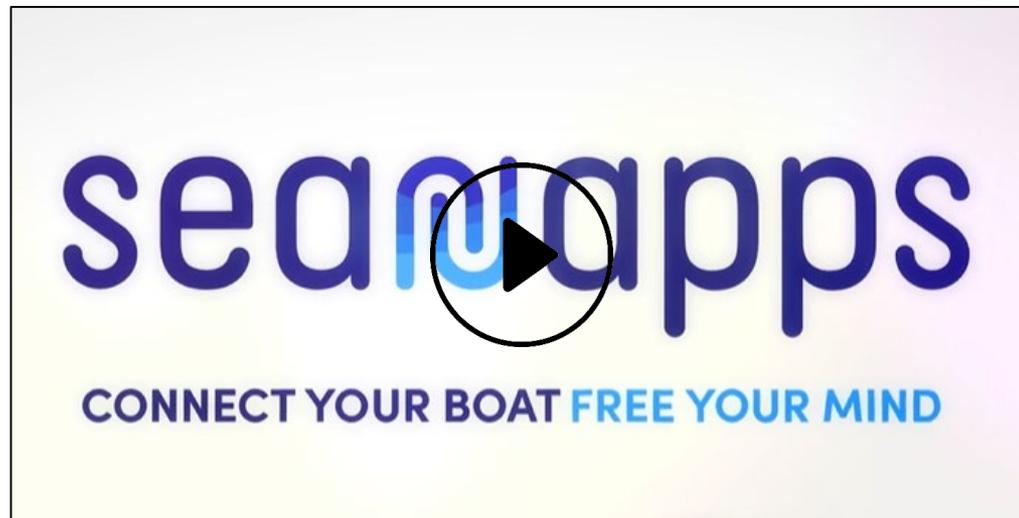

LAGOON 51 CONNECTIVITY

LAGOON 51 EMBARKS THE SEANAPPS TECHNOLOGY

The Seanapps application and its smart box simplify your boat's management and maintenance.

The Lagoon 51 will be the very first Lagoon catamaran equipped with this technology.

Whether you want to check your fuel and battery charge levels, or schedule maintenance operations, Seanapps helps you streamline and safeguard your boat's maintenance requirements simply and easily.

Functionalities

- ✓ Safety: GPS position - Engine information - Battery level - Bilge level
- ✓ Navigation: Depth - Wind information - Average speed - Maximum speed - Distance travelled
- ✓ Comfort: Fuel level - Water tank level - Interior humidity - Interior temperature

Advantages

- ✓ Check your maintenance operations easily using the application's integrated maintenance logbook.
- ✓ Simplify the planning of your boat's maintenance by scheduling maintenance operations directly with your Lagoon dealer via the application.
- ✓ Consult our experts to find out how to extend the lifetime and performance capabilities of your boat and all its equipment.

LAGOON,
THE BRAND

THE BRAND

Lagoon's will is to offer comfortable and self-sufficient catamarans, resulting from a sustainable production, featuring tomorrow's technologies, to satisfy the expectations of today's sailors

LAGOON

THE BRAND

Sound experience gained over 30 years

Since it was founded in 1984, Lagoon has developed outstanding expertise in building catamarans.

Lagoon's awareness and reputation relies on:

- The capacity to make the most out of the available space to ensure exceptional comfort
- The great design and the high quality standards that Lagoons require
- The attention Lagoon pays to clients' needs and feedback

Lagoon is world leader in the sector since 2003, and is proud to count over 6000 boats built to date. This leadership is also based on strong partnerships with the renowned designer NAUTA Design (interior design), Patrick le Quément (exterior design), or VPLP design (naval architects whose achievements in designing multihulls are unequalled).

Lagoon offers the most comprehensive range of cruising catamarans on the market, from 40 to 78 feet. There are two models in Lagoon's Motor Yacht range: the SEVENTY 8, launched in 2018, and the SIXTY 7, launched in 2020.

Lagoon's sailing and motor-powered ranges are available through a worldwide network of 90 specialised and passionate dealers. This network grows every year, together with official Lagoon Service Centers, and Lagoon is the reference on the market in terms of service worldwide.

THE BRAND

CLUB LAGOON & FRIENDS OF LAGOON

CLUB LAGOON

Launched in December 2012, Club Lagoon immediately seduced Lagoon catamarans' owners. Lagoon accompanies the owners throughout their dream.

Today, Club Lagoon is:

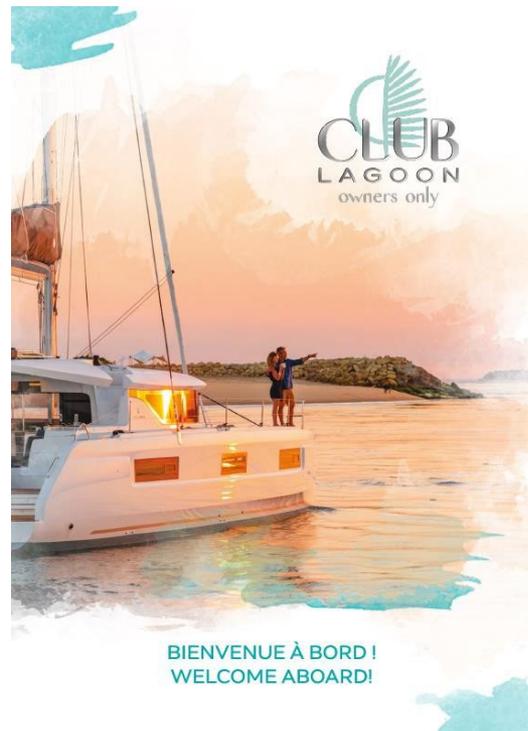

- Discounts at our Club Lagoon partners
- Privileged access in our partner marinas
- VIP Invitations to Lagoon events
- Exclusive offers in the Lagoon Boutique
- ...and much more!

The owners of a large Lagoon unit have access to the Lagoon Premium Program. The owner will benefit from a personal guidance by the Lagoon team from order, customization needs, construction follow up to delivery as well as many other advantages.

FRIENDS OF LAGOON

A dedicated account on the website for all Lagoon catamaran aficionados where they can get information on models, partners and equipment. They are able to save their configurations and enjoy discounts in the Lagoon Boutique!

THE BRAND

THE 6000TH LAGOON

A dream since 1984

It was with great emotion in April 2021 that we welcomed the 6000th Lagoon at the CNB shipyard in Bordeaux.

It fell to a South African couple who are finally realizing their dream. They are the 6000th Lagoon owners, ready to put to sea. *"We can't wait to set sail!",* said the family.

Their sailing project has already been determined: first, they'll be bound for the Mediterranean and then to the Caribbean. Having already worked on boats, our seasoned sailors are now ready to head off to new horizons. Their Lagoon 50 will become their home for a year and a half. And this is how the catamaran came by its name, "KAYA" meaning "home" in the Zulu language.

The Turquoise teams are delighted to be wishing these 6000th owners as a long and beautiful a journey as the one by the Lagoon brand itself, which is far from being over!
